Professional Summary

Computer Science engineering student and Full-Stack Developer with internship experience building enterprise and web applications using Java, Spring Boot, React, Next.js, and Laravel. Experienced in REST APIs, microservices, authentication, databases, messaging, and DevOps tooling. Seeking software engineering, Full-Stack, or Backend internship and alternance opportunities.

Technical Skills

Languages: Java, JavaScript, TypeScript, PHP, SQL, C, Python
Frontend: React.js, Next.js, Tailwind CSS, HTML/CSS, TanStack React Query, Zustand, Recharts
Backend: Spring Boot, Spring Cloud Gateway, Spring Security, Laravel, REST APIs, JWT, Microservices, RabbitMQ, MVC
Databases: PostgreSQL, MySQL, MongoDB, Oracle, SQLite, Spring Data JPA, Prisma, Flyway
DevOps & Tools: Docker, Kubernetes, Helm, Terraform, Git, GitHub Actions, Trivy, Vercel, NextAuth, MapStruct, Lombok, GSAP, Framer Motion

Professional Experience

2SIS Technologies — Software Engineering Intern Apr. 2026 – Jun. 2026
Morocco

- Developed AtlasHR, an enterprise Human Resource Management System using Java 21, Spring Boot, Next.js, React, TypeScript, and PostgreSQL.
- Implemented microservices-based backend services with Spring Cloud Gateway, Spring Security, JWT authentication, Spring Data JPA, RabbitMQ, and Flyway.
- Built HR workflows and analytics dashboards covering employee management, attendance, leave, payroll, performance, recruitment, training, expenses, fleet, notifications, and reporting.
- Worked with Docker, Kubernetes, Helm, Terraform, GitHub Actions, and Trivy for containerization, infrastructure, CI/CD, and security scanning.

ONEE (Branche Eau) — Web Development Intern June 2025
Meknès, Morocco

- Developed a functional web application in a team using Laravel, Laravel Breeze, Blade, and SQLite within an MVC architecture.
- Implemented application functionality while collaborating with team members and working within project deadlines.

Projects

AtlasHR — Enterprise Human Resource Management System

- Full-stack HR platform with microservices architecture, secure REST APIs, role-based access, messaging, database migrations, and analytics.
- Technologies: Java 21, Spring Boot, Spring Cloud Gateway, Spring Security, JWT, RabbitMQ, PostgreSQL, Next.js, React, TypeScript.

HOMELY — Real Estate SaaS Platform

- Developed a secure Spring Boot REST API with JWT authentication, PostgreSQL database, and an administrative dashboard with role management.

INNOVEX — Tech Event Explorer

- Built a Full-Stack application with Next.js and Prisma, integrated NextAuth JWT authentication, and deployed to Vercel.

ONEE-SYS — Inventory Management System

- Developed a Laravel MVC inventory system with CRUD operations, validation, and equipment and employee management using SQLite.

ZENTRY CLONE — Animated Landing Page

- Recreated a responsive React interface using a mobile-first approach and advanced GSAP animations.

Education

École Supérieure de Technologie — DUT in Computer Science 2024–2026
Meknès, Morocco
